

# Chapter 5 Web Links

## [Complete Genomes in KEGG](#)

[http://www.genome.ad.jp/kegg/catalog/org\\_list.html](http://www.genome.ad.jp/kegg/catalog/org_list.html)

Updated links to all currently sequenced genomes.

## [Science Daily: Biotechnology News](#)

[http://www.sciencedaily.com/news/plants\\_animals/biotechnology/](http://www.sciencedaily.com/news/plants_animals/biotechnology/)

Current news on biotechnology, genomics, bioinformatics, and proteomics research.

## [U.S. Department of Energy Genomics Site](#)

<http://genomics.energy.gov>

Gateway to the various U.S. Department of Energy genomic websites.

## [NCBI Human Genome Resources](#)

<http://www.ncbi.nlm.nih.gov/projects/genome/guide/human/index.shtml>

In-depth resources on the human genome.

## [MSU Rice Genome Annotation Project](#)

<http://rice.plantbiology.msu.edu/>

Sequence and annotation data for the rice genome, from Michigan State University.

## [Institute for Systems Biology](#)

<http://www.systemsbiology.org/>

Clear explanations of the methods and potential of systems biology.

## [ExpASY Bioinformatics Resource Portal](#)

<http://www.expasy.org/proteomics>

Resources and tools for proteomic analysis.
