

Chapter 19 Web Links

[University of Wisconsin Stem Cell and Regenerative Medicine Center](http://www.stemcells.wisc.edu/)

<http://www.stemcells.wisc.edu/>

Home page of the laboratory where human embryonic stem cells were first isolated, with many links.

[The International Cell Death Society](http://www.celldeath-apoptosis.org/)

<http://www.celldeath-apoptosis.org/>

Apoptosis, the web page of the cell death society.

[Apoptosis in Humans](http://www.genome.jp/kegg/pathway/hsa/hsa04210.html)

<http://www.genome.jp/kegg/pathway/hsa/hsa04210.html>

Detailed pathway of gene products involved in apoptosis, with links for each.

[Stem Cells](http://stemcells.nih.gov/)

<http://stemcells.nih.gov/>

Updated information on stem cells from the U.S. National Institutes of Health.

[Ethics of Therapeutic Cloning](http://www.srtp.org.uk/srtp/theme_cat/C13)

http://www.srtp.org.uk/srtp/theme_cat/C13

Clear, concise statements of the ethical issues involved in cloning using stem cells.

[Learn.Genetics \(Genetics Learning Center\): Stem Cells](http://learn.genetics.utah.edu/content/tech/stemcells/)

<http://learn.genetics.utah.edu/content/tech/stemcells/>

Overview of the biology of stem cells and potential uses.
